

# Arran Patrick Moran

## Researcher

I am an ambitious Science Communication graduate eager to take my first step into TV, particularly natural history. With experience in project management, I am a friendly team player with the ability to multi-task and time manage. I have a determined persona with a passion for new and original ideas, always ready to take on new challenges. I am particularly keen on the pre-production side of TV but happy to gain experience all over.

 Bristol, UK
